

Installing the Macromedia Authorware Web Player

To be able to access the Calculations Software you will need to install the Authorware Player. To install the player go to Macromedia downloads site at <http://www.macromedia.com/shockwave/downloads/alternates> Scroll down the page to the Authorware Web Player 2004 links. You will see links for both Netscape and Internet Explorer. Since they both install differently instructions have been included for each.

Internet Explorer

1. Click on the link for the Authorware Player
2. In the next window, click the “Install Now” button.
 - a. A message might appear saying a popup was blocked. Click OK.
 - b. If a yellow information bar appears at the top of the page, click on it and choose “Install Active X” from the drop down menu. The information bar will be right below the regular menu bars.
 - c. When the Security Warning box appears, click “Install”
3. When the movie starts playing in the browser window the plug-in is installed.
4. Return to the course homepage and open the calculations software. It will take a few minutes to load, especially if you are working from home.

Netscape

1. Click on link for the Authorware Player.
2. In the next window click “Download Now”
3. Save the setup file to the desktop.
4. Close the browser window.
5. Double click on the downloaded setup file to open it.
6. In the Security Warning window choose “Run”
7. Follow the on screen instructions to install the player.
8. Once the player is installed, return to the course homepage and open the calculations software.
